HIGH WIND VELOCITY

ATTAINED SPEED OF FORTY-TWO
MILES AN HOUR YESTER-
DAY AFTERNOON.

Weather Observer Reed issued the following bulletin at 2 p. m. yesterday:

The morning weather chart indicated a storm center in the vicinity of Mobile with a pressure of 29.64 inches; at the same hour the pressure in Pensacola was 29.88. After the issuance of the morning map at 11:35 a. m., the following message was received from the Washington office:

"Disturbance in Gulf south of Mobile and Pensacola is likely to cause wind squalls off the Alabama and West Florida coasts this afternoon and to-night."

Upon receipt of this information the white flag which was flying for an indication of fair weather on Thursday was replaced by the storm flag.

Those most anxious for some knowledge upon the weather conditions immediately telephoned the office for information which was given between the busy moments when the observer was taking special observations. The information was given out by telephone immediately after 12 noon.

The sea-level pressure as indicated by the barometer of the weather bureau reached the abnormally low figure of 29.40 inches at 12:50 p. m. then it started to rise. A velocity of 37 miles from the southwest was registered at 11:14 a. m.; the wind then decreased in force to 12 miles per hour from the west at 12:40 p. m., when it veered to the northwest, gradually increasing in force to 42 miles at 1:12 p. m.; at 2 p. m. when another special observation was taken the wind was blowing at the rate of 29 miles from the north, and indications of clearing sky appeared in the southwest. This storm is being closely watched and it is quite likely that the Washington office will order storm warnings for some parts of the Atlantic coast. The rainfall from 4:50 a. m. to 2 p. m. was only .74 of an inch.

NEW SCIENTIFIC PROCESS.
A Preparation Discovered That Will Destroy the Dandruff Germ.

For some time it has been known that dandruff is caused by a germ that digs up the scalp into little white flakes, and by sapping the vitality of the hair at the root, causes falling hair, and, of course, finally baldness. For years, there have been all kinds of hair stimulants and scalp tonics on the market, but there has been no permanent cure for dandruff until the discovery of a preparation called Newbro's Herpicide, which destroys the dandruff germ. Destroy the cause, the effect will cease to exist. Kill the dandruff germ and you'll have no dandruff no itching scalp, no falling hair. Sold by leading druggists. For sale by W. A. D'Alemberte, druggist and apothecary, 121 S. Palafox. Send 10 cents in stamps for sample to Herpicide Company, Detroit, Mich.

THE BOARD OF PUBLIC SAFETY

THREE POLICEMEN WERE UP
FOR TRIAL—MONTHLY RE-
PORTS WERE RECEIVED.

The regular meeting of the Board of Public Safety was held last night, with Chairman White presiding and Mayor Welles and Messrs. Ingraham and Johnson present.

The first matter to come to the attention of the board were charges against Police Officers Carlin, Barter and Humphreys for conduct unbecoming officers. Officers Barter and Humphreys were given a severe reprimand and Officer Carlin suspended from duty for twenty days.

The recommendation of Chief White of the fire department that the water plugs be painted, and that some of them be replaced, was adopted.

Chief Schaefer, of the police department, submitted his monthly report, showing that 532 arrests had been made during March. Of this number 534 were convicted and 87 dismissed. Twenty-one were turned over to the county authorities and sentences suspended in several cases. Fines imposed amounted to \$3,324, while collections aggregated \$1,886.

The certificate of the city physician upon the application of Officer Parker for a permanent position in the police department, was returned with the recommendation that he be not accepted. The board concurred in the report.

The applications of B. H. Eaton, Wm. E. Myers and Fred Pearce, for positions in the police department, with favorable certificates from the city physician, were read and after examination by the board, were accepted.

The applications of Steve Sanchez and Henry Becker for positions in the fire department, were read and accepted, subject to examination.

The application of E. H. Ylvestra for a position in the fire department, and that of J. L. Long for a position in the police department, were referred to the heads of the respective departments.

The Head of More.
When the wise and witty Sir Thomas More was beheaded his head was stuck on a pole on London bridge, where it was exposed for fourteen days, much to the grief of his daughter, Margaret Roper, who resolved to secure it. "One day," says Aubrey, "as she was passing under the bridge, looking at her father's head, she exclaimed: 'That head has lain many a time in my lap. Would to God it would fall into my lap as I pass under!' She had her wish, and it did fall into her lap."

Probably she had bribed one of the keepers of the bridge to throw it over just as the boat approached, and the exclamation was intended to avert the suspicion of the boatmen. At all events, she got possession of it and preserved it with great care in a leaden casket until her death, and it is now inclosed in a niche in the wall of her tomb in St. Dunstan's church, Canterbury.—Notes and Queries.

Laughter and Worldly Success.
"Speaking of laughter, I have often wondered if the laughing man and the laughing woman really get along better in the world than the man and woman who do not laugh, or if they laugh at all merely grin at some amusing thing," said the observant man. "I do not know, I am sure. Of course you will find that men and women of both types probably in your own acquaintance have been able to get along fairly well in the world. Laughter is no doubt good capital in a great many instances. It is equally true that the grim face, the sour look, I may say, has often proved a valuable asset. The which would seem to indicate that there is a time to laugh and a time not to laugh."—New Orleans Times-Democrat.

Franz Abt's Companion at Dinner.
Franz Abt, the famous composer, was strolling home one afternoon in Brunswick when he met a friend, who said to him:

"You seem very happy, dear fellow. Have you heard any good news?"

"Oh, no; I've just taken dinner," was the reply.

"You evidently enjoyed it. What did you have to eat?" continued the friend.

"A turkey," replied Abt.

"And how many were at table?" asked the other.

"There were only two of us," said Abt.

"Who was your companion?" inquired the friend.

"The turkey," replied Abt.

Men With Beards.
What a vast difference there is between one beard and another! There is the long, untrammelled beard, broad and thick, which the owner caresses as if it were an infant. Men with such beards may, I think, as a rule, be trusted rather more than other men. Can you imagine a Venetian doge or a member of the council of ten without a beard? I cannot. If you have seen a man of mark fondle his long beard during the processes of reflection you will be apt to wonder whether or not his mind would lose its equilibrium if he were in the night to be shaven clean. —All the Year Round.

Grocers Who Dressed in Colors.
In the early part of the fifteenth century it is recorded that the "grocers" guild appeared in livery of scarlet and green. A few years later scarlet and black was adopted. Funeral services of deceased members "were attended with much show of pageantry." At the burial of Sir Philip Sidney, who was a member of the grocers' guild, his worship the mayor, aldermen and other civic officials were present, "riding in purple."—London Telegraph.
